We will walk on trails in the back of the gardens and may see Yellow-chinned Spinetail, Black-crested Antshrike, Silver-beaked Tanager, Buff-breasted Wren, Golden-spangled Piculet and Ashy-headed Greenlet. You may even want to take a break from birding to feed some manatees in one of the nearby ponds.

Return to your hotel.

Pickup and transfer to Eugene F. Correia International Airport.

From the Eugene F. Correia International Airport take a scheduled flight over the Demerara and Essequibo Rivers and hundreds of miles of unbroken tropical rainforest to land at Kaieteur Falls, the world's highest free-falling waterfall.

Kaieteur is situated in the heart of Guyana on the Potaro River, a tributary of the Essequibo. The water of Kaieteur flows over a sandstone conglomerate tableland into a deep gorge - a drop of 741 feet or 5 times the height of Niagara Falls.

There are no other falls in the world with the magnitude of the sheer drop existing at Kaieteur. Amerindian legend of the Patamona tribe has it that Kai, one of the tribe's chiefs (after whom the falls is named), committed self-sacrifice by canoeing himself over the falls. It was believed this would encourage the Great Spirit Makonaima to save the tribe from being destroyed by the savage Caribishi.

Kaieteur supports a unique micro environment with Tank Bromeliads, the largest in the world, in which the tiny Golden frog spends its entire life and the rarely seen Guiana Cock- of-the-rock nesting close by. The lucky visitor may also see the famous flights of the Kaieteur Swifts or Makonaima Birds which nest under the vast shelf of rock carved over millions of years by the black water of the Potaro River.

Condition of Sale:

Flights to Kaieteur and/or Orinduik Falls are operated on a scheduled aircraft and mainly on weekends, and all flights have a minimum passenger restriction. Therefore, any booking to Kaieteur and Orinduik Falls is subject to a minimum of 12 passengers being available to travel. In most cases we are able to fill flights. However, in the rare case that we cannot meet the required numbers we will reschedule the trip to another day during your stay, if this is possible. Wilderness Explorers retains the right to reschedule a flight as a first option. If we cannot reschedule the flight Wilderness Explorers will guarantee a flight, with a minimum of 2 passengers, to Kaieteur Falls only. If a flight is cancelled due to circumstances beyond our control, such as weather, we will endeavour to reschedule the flight or offer another excursion of the same value during your itinerary. If this is not possible then a full refund on the flight will be made.

Board schedule flight for journey over hundreds of miles of tropical rainforest to land at Fair View Airstrip. (Check in time 0730hrs, Departure 0900hrs)

Pick up from Fair View airstrip and transfer to Iwokrama River Lodge.

Leave the lodge by boat, birdwatching along the way, for the hike to Turtle Mountain. A well-maintained trail winds through the forest before an exhilarating climb up the mountain to its summit at 935ft (approx. 360m). It takes 1 3/4hrs to walk up the mountain, but the effort is more than worth it for the breathtaking views over the forest canopy when you get there and chances of Green Aracari, White Bellbird or a fly-by of one of five types of eagles. This trail is also a great location for seeing Black Spider and Red Howler monkeys. If you think this hike may be too strenuous you can take an alternative boat trip to Stanley Lake to search for Giant River Otters and Black Caiman.

After lunch transfer along the trail that is one of the best places to see the elusive Jaguar. No promises, but many have been lucky! Along the road, we will watch for the myriad of bird species that frequent the forest edge. This road is the only north – south access in Guyana and links the country to Brazil. Even so traffic is only very occasional and wildlife is often seen along the road, such as Agouti, Tayra, Tapir and Black Curassow. The journey concludes at the Atta Rainforest Lodge, home of the Iwokrama Canopy Walkway.

The Iwokrama Canopy Walkway is situated near the southern boundary of the Iwokrama Reserve in central Guyana. The walkway has four suspension bridges leading to three platforms, the highest of which is over 30 metres above the ground. (**Important note: currently, 2 bridges & 1 platform is down for maintenance**)

Another area where we will want to spend some time is the clearing around the lodge, as this is one of the best places to see another of Guyana's "must see" birds, the Crimson Fruitcrow. The clearing is also a reliable site for Black Curassow as there is a large and growing family party which has become habituated to people and regularly passes through the clearing.

Atta Rainforest Lodge is 500 metres from the base of the Iwokrama Canopy Walkway, offering comfortable private-room accommodation with ensuite bathrooms, delicious home-cooked meals, and traditional Amerindian hospitality. The communal building houses the bar, dining area and kitchen and is open sided with views across the gardens to the towering forest, which completely surrounds the lodge. Hammocks and outdoor benches enhance the lovely gardens which include varieties of heliconias that attract over ten different hummingbirds, close enough for the perfect photo. Overnight at [Atta Rainforest Lodge](#). BLD

Tuesday

Before dawn we will return to the canopy where we can birdwatch easily and may see Rufous-throated Sapphire, Green Aracari, Pygmy Antwren and Guianan Streaked-Antwren. With some luck Guianan Toucanet, Pompadour Cotinga, Buff-cheeked Greenlet and a host of crown specialists may come within our view. From this tree top vantage, you can sometimes see Red Howler and Black Spider Monkeys.

Apart from the Iwokrama Canopy Walkway itself you can enjoy wildlife and birdwatching walks on the trails around the area. Many bird species, stunning insects, noisy amphibians, and playful primates make the surrounding forest their home. Deer, Tapir and agouti are also regular visitors to the lodge. Serious birders will want to search the undergrowth for the rarely seen Rufous-winged Ground-cuckoo.

As darkness falls on the canopy walkway, you may see the White-winged Potoo. Night walks are also possible and something interesting or new always seems to pop on to the scene including one of the six different cats to be found along the transnational road near the lodge. Overnight at [Atta Rainforest Lodge](#). BLD

Wednesday

Welcome the dawn chorus from the canopy walkway and then return to the lodge for breakfast before departure.

Transfer from Atta Rainforest Lodge through the rainforest to the Corkwood in the Iwokrama Forest.

Here there is a comparatively short trail to hopefully see the amazingly brilliant Guianan Cock-of-the-rock. This trail is through interesting and pristine rainforest and the guides can explain how the plants are used for medicine and other purposes.

We will then continue to Ginep Landing.

From Ginep Landing we take a boat trip on the Rupununi River to Karanambu Lodge. Depending on the river level, this trip offers an excellent opportunity to look for Giant Otters as there are several family groups which live along this stretch of the Rupununi River.

Karanambu, a 110-square mile former cattle ranch located in the North Rupununi, was the home of the late Diane McTurk, conservationist and a world-renowned expert on giant otters. Known for its expansive wetlands and savannah, as well as its biological and cultural diversity, Karanambu encompasses savannah, marshy ponds, riparian forest, and a 30-mile stretch of the Rupununi River. The number of species found here is much higher than expected given its size with at least 600 species of bird, and over 200 species of mammals. The seasonally flooded savannahs and forests also draw substantial fish migrations with as many as 700 species of fish — more than anywhere on earth.

This region is rich in history and is the homeland of the Makushi and earlier peoples dating back more than 7,000 years. Several prominent explorers and naturalists have written about their experiences here, including Robert and Richard Schomburgk, Charles Waterton, Evelyn Waugh, and Gerald Durrell. A very young David Attenborough spent time here and wrote about it in his early book, “Zoo Quest to Guiana”.

With both the river and savannahs close at hand there is a wide variety of activities to be enjoyed at Karanambu. Two guided excursions are provided each day — one early in the morning and another late in the afternoon and into the evening. As well as being the coolest times to be out, these are usually the best times to see the different birds and animals. Trips may be on the river by boat, on the savannahs by 4 by 4 or along forest trails on foot to the different ponds in the area.

Late in the afternoon we will travel by boat to look for wild Giant River Otters and as dusk falls to the ponds to see the giant *Victoria amazonica* waterlily, bloom at dusk. On the return trip we will spotlight for Black Caiman and birds and creatures of the night.

Accommodations are in traditionally made clay brick cabins, each with en suite and veranda with hammocks. Overnight at [Karanambu Lodge](#). BLD

Thursday

This morning we make an early start to an area of rolling grasslands, home to a population of giant anteaters. With luck we shall locate one of these six-foot long animals excavating its breakfast from one of the termite mounds that stud the savannah. Though giant anteaters live in overlapping home ranges they are mostly solitary except during mother-offspring relationships, aggressive interactions between males, and when mating. Mother anteaters carry their offspring on their backs until weaning them.

Evening river excursion or if you are interested in bird watching you can explore woodland patches or gallery forest along the river where we'll hope to find a variety of species. A feature bird for the area is the Agami Heron. An evening walk along the airstrip offers seven species of nightjar and among the grasslands the Double-striped Thick-knees. Overnight at [Karanambu Lodge](#). BLD

Friday

In the event you did not see a giant anteater the previous morning, there is time to travel out to search the savannah again. Or explore the Rupununi River in search of wild Giant River Otters, Black Caiman and Arapaima, making a boat journey along quiet stretches of river.

Return to the lodge for breakfast before departure.

Transfer from Karanambu Lodge across the savannah to Lethem.

Saturday

This morning we make an early start to have breakfast at one of the local stands with our host, guide and culinary master, Chef Delven Adams who will guide us around Bourda Market, the largest of the four markets in Georgetown. We will start our tour at the Guyana Shop which has all the local products produced and packaged in Guyana, before heading over to the market where we will meet some of the vendors who Chef buys from daily.

We will visit the fish market, the meat section and the haberdashery section - where one can find anything you can think of from thread to bolts of all kinds of fabric. Dry goods like rice and of course demerara sugar are abundant. A stop at the bush medicine stalls is always educational. Heading outside you can see, touch and taste a variety of local fruits and vegetables unique in this part of the world. The chef will make his purchases with your suggestions of what you would like to try and will then head home to start preparing while we continue on a tour of the city of Georgetown with an experienced guide who will give you the history, rumour and facts on Georgetown and its citizens.

During your visit to Georgetown, there are a number of interesting sites that should not be missed such as the National Museum, which contains a broad selection of our animal life portrayed in taxidermy in beautiful old glass cases, and the Walter Roth Museum of Anthropology, which houses a wonderful collection of artefacts and explains history and lifestyle of our indigenous peoples.

On this mix of vehicle and walking tour, enjoy the views of other historic buildings along this promenade such as the Public Library, City Hall, the Victoria Law Courts, St. Andrews Kirk, Stabroek Market - once described as a "bizarre bazaar, and St. George's Cathedral, which is one of the world's tallest free-standing wooden buildings.

We will visit the Botanical Gardens, home to an extensive collection of tropical flora, and we will also pay a visit to a pond either in the gardens or the National Park, to feed the endangered West Indian Manatees.

After our city tour, we will go to the Backyard Café for lunch. This, as the name suggests, is a backyard that Chef has turned into an exclusive little hidden gem of a restaurant. If you are interested, Chef will welcome you to join him as he prepares a wonderful meal prepared from the fruits and vegetables we bought in the market in the morning. Or you can just sit under the arbour and sip unique blends of juice or enjoy a cold beer, while taking in the sounds and smells of a delicious meal in the making. Once

he is ready, we will start eating our way through the courses, remember to pace yourself as you will want to try it all.

We then continue our trip to see the Demerara Harbour Bridge, once the longest floating bridge in the world at a total length of 1,851m long. We will cross under the bridge and tie up our boat near a mangrove that is the nightly roost for a variety of birds.
